## NOOA Late Application and Fee Payment Procedure

If the application and fees have not been received and processed by **March 1**:

- The application or renewal application cannot proceed (including arranging an inspection) until:
  - Fees are paid or
  - A payment plan\* has been approved by the NOAA Administrator and Board Executive
- A late fee of \$200 is applied and needs to be paid before the file is reactivated.
- The applicant's status is changed to "not in good standing" on NOAA's and COABC's lists.

If the application and fees have not been received and processed by **April 1**, and there has been no communication with the NOAA Administrator:

- The applicant will miss inspection planning for the year, so will need to:
  - Pay full cost of the inspection or
  - Wait until the following year to apply. For renewals, this means losing time towards transitional status and possible loss of full Certified Organic status due to the lapse.

\* Possible payment plans, on a bi-weekly or monthly schedule, with dates and amounts specified over a specific timeline, include:

- post-dated cheques
- e-transfer payments
